# Subject Index

**Affective Disorders**
Current research in affective disorders following stroke. Robinson RG, Starkstein SE. Winter 1–14
Differential diagnosis and pathophysiology of Cushing's syndrome and primary affective disorder. Krystal A, Krishnan KRR, Raitiere M, Poland R, Ritchie JC, Dunnick NR, Hanada K, Nemeroff CB. Winter 34–43
**Aggression**
Subtyping aggression in children and adolescents. Vitiello B, Behar D, Hunt J, Stoff D, Ricciuti A. Spring 189–192
**Alcoholism**
The application of electrophysiology to research in alcoholism. O'Connor S, Tasman A. Spring 149–158
Basal ganglia/limbic striatal and thalamocortical involvement in craving and loss of control in alcoholism. Modell JG, Mountz JM, Beresford TP. Spring 123–144
**Alzheimer's Disease**
Organic personality disorder in dementia syndromes: an inventory approach. Cummings JL, Petry S, Dian L, Shapira J, Hill MA. Summer 261–267
Psychiatric symptoms associated with Alzheimer's disease. Mendez MF, Martin RJ, Smyth KA, Whitehouse PJ. Winter 28–33
Subgroups in dementia of the Alzheimers type identified using positron emission tomography. Grady CL, Haxby JV, Schapiro MB, Gonzalez-Aviles A, Kumar A, Ball MJ, Heston L, Rapoport SI. Fall 373–384
**Asperger's Syndrome**
Developmental cortical anomalies in Asperger's syndrome: neuroradiological findings in two patients (clinical and research report). Berthier ML, Starkstein SE, Leiguarda R. Spring 197–201
**Assessment**
Cortical function assessment in the elderly. Herst LD, Voss CB, Waldman J. Fall 385–390
**Attention Deficit Disorder**
Comparative effectiveness of carbamazepine and propranolol for rage outbursts. Mattes JA. Spring 159–164
**Autism**
Autistic children and their first-degree relatives: relationships between serotonin and norepinephrine levels and intelligence. Cook EH, Leventhal BL, Heller W, Metz J, Wainwright M, Freedman DX. Summer 268–274
Expression of a neural cell adhesion molecule serum fragment is depressed in autism. Plioplys AV, Hemmens SE, Regan CM. Fall 413–417
**Basal Ganglia**
Basal ganglia/limbic striatal and thalamocortical involvement in craving and loss of control in alcoholism. Modell JG, Mountz JM, Beresford TP. Spring 123–144
**Books Reviewed**
Anxiety and Depressive Disorders in the Medical Patient. Derogatis LR. Summer 351–352
Brain Imaging Applications in Psychiatry. Edited by Andreasen NC. Fall 460
Concise Guide to Treatment of Alcoholism and Addictions. Frances RJ. Spring 233–234
Evoked Potentials in Clinical Medicine (Second Edition). Chiappa KH. Spring 232–233
From Neuropsychology to Mental Structure. Shallice T. Summer 349–351
Geriatric Psychiatry. Edited by Busse EW, Blazer DG. Winter 111
Left Side, Right Side: A Review of Laterality Research. By Beaton A. Winter 112–113
**Brain**
Localization in neuropsychiatry (editorial). Fogel BS. Fall 361–362
Quantitative shape analysis of the temporal and prefrontal lobes of schizophrenic patients: a magnetic resonance image study. Casanova MF, Goldberg TE, Suddath RL, Daniel DG, Rawlings R, Lloyd DG, Loats HL, Kleinman JE, Weinberger DR. Fall 363–372
**Carbamazepine**
Comparative effectiveness of carbamazepine and propranolol for rage outbursts. Mattes JA. Spring 159–164
**The Carolina Nosology of Destructive Behavior (CNDB)**
Eichelman B, Hartwig A. Summer 288–296
**Children**
Dexamethasone suppression test and depressive symptoms in bereaved children: a preliminary report. Weller EB, Weller RA, Fristad MA, Bowes JM. Fall 418–421
**Cingulotomy**
Stereotactic radiofrequency thermal cingulotomy for obsessive compulsive disorder (neuropsychiatric practice and opinion). Martuza RL, Chiocca EA, Jenike MA, Giriunas IE, Ballantine HT. Summer

331–336
**Clinical Abstracts (Basic Neurosciences)**
Baraban JM. Fall 456
Baraban JM, Rayport S. Winter 108–110, Spring 225–226, Summer 343–344
Rayport S. Fall 455–456
**Clinical Abstracts (Clinical Laboratory and Diagnostic Testing)**
Rosse RB. Winter 102–104, Spring 223–224, Summer 345–346, Fall 450–451
**Clinical Abstracts (Clinical Neurology)**
McNamara E. Fall 454–455
Schiffer RB. Winter 101, Spring 224–225
Schiffer RB, McNamara E. Summer 340–341
**Clinical Abstracts (Clinical Neuropsychiatry)**
McAllister TW, Trzepacz PT. Winter 99–100, Spring 229–230, Summer 337–339
Mcallister TW. Fall 452
Trzepacz PT. Fall 453
**Clinical Abstracts (Geriatric Neuropsychiatry)**
Hommer D. Spring 226–227, Summer 347–348, Fall 453–454
**Clinical Abstracts (Neuropsychology)**
Bilder R. Fall 458
Lovell MR. Winter 104–106, Fall 458–459
Lovell MR, Bilder R. Spring 227–228, Summer 341–342
**Clinical Abstracts (Neurosurgery)**
Toselli R. Spring 221–222, Summer 339–340, Fall 451–452
**Clinical Abstracts (Psychopharmacology)**
Silver JM. Spring 230–231, Summer 342–343, Fall 457–458
**Clinical and Research Reports**
Asymmetry in clinical features of drug-induced Parkinsonism. Sethi KD, Zamrini EY. Winter 64–66
Brain-mapping abnormalities in a family with three obsessive compulsive children. Silverman JS, Loychik SG. Summer 319–325
Neuropathological findings in a suspected case of childhood schizophrenia. Casanova MF, Carosella N, Kleinman JE. Summer 313–319
Secondary mania after ventral pontine infarction. Drake ME, Pakalnis A, Phillips B. Summer 322–325
Treatment of Tourette's syndrome with transdermal clonidine: a pilot study. Gancher S, Conant-Norville D, Angell R. Winter 66–69
What the reflex epilepsies reveal about the physiology of ideation. Epstein AW. Winter 69–71
**Clonidine**
Treatment of Tourette's syndrome with transdermal clonidine: a pilot study (clinical and research report). Gancher S, Conant-Norville D, Angell R. Winter 66–69
**Cognition**
Cognitive deficits associated with human immunodeficiency virus encephalopathy. Krikorian R, Wrobel AJ, Meinecke C, Liang WM, Kay J. Summer 256–260
Emotional and cognitive correlates of multiple sclerosis. White RF. Fall 422–428
**Computerized Tomography**
Developmental cortical anomalies in Asperger's syndrome: neuroradiological findings in two patients (clinical and research report). Berthier ML, Starkstein SE, Leiguarda R. Spring 197–201
**Continuing Education**
Continuing education in neuropsychiatry (letter). Thenor F. Winter 115
Reply to Dr. Thenor (letter). Yudofsky SC. Winter 116
**Cortex**
Cortical function assessment in the elderly. Herst LD, Voss CB, Waldman J. Fall 385–390
Developmental cortical anomalies in Asperger's syndrome: neuroradiological findings in two patients (clinical and research report). Berthier ML, Starkstein SE, Leiguarda R. Spring 197–201
**Cushing's Syndrome**
Differential diagnosis and pathophysiology of Cushing's syndrome and primary affective disorder. Krystal A, Krishnan KRR, Raitiere M, Poland R, Ritchie JC, Dunnick NR, Hanada K, Nemeroff CB. Winter 34–43
**Delirium**
Brain magnetic resonance imaging findings in ECT-induced delirium. Figiel GS, Coffey CE, Djang WT, Hoffman G, Doraiswamy PM. Winter 53–58
**Dementia**
A brief scale for the dementia of Parkinson's disease. Huber SJ, Shuttleworth EC, Christy JA, Rice RR. Spring 183–188
Confrontation naming deficit in dementia of depression. Speedie L, Rabins P, Pearlson G, Moberg P. Winter 59–63
Organic personality disorder in dementia syndromes: an inventory approach. Cummings JL, Petry S, Dian L, Shapira J, Hill MA. Summer 261–267
Subgroups in dementia of the Alsheimer type identified using positron emission tomography. Grady CL, Haxby JB, Schapiro MB, Gonzalez-Aviles A, Kumar A, Ball MJ, Heston L, Rapoport SI. Fall 373–384
Suspected dementia: psychiatric differential diagnosis. Ron MA. Spring 214–219
**Depression**
Confrontation naming deficit in dementia of depression. Speedie L, Rabins P, Pearlson G, Moberg P. Winter 59–63
Depression in Parkinson's disease: a biochemical model (neuropsychiatric practice and opinion). Sano M, Stern Y, Cote L, Williams JB, Mayeux R. Winter 88–92
Depression in Parkinson's disease; reconciling physiological and psychological perspectives (neuropsychiatric practice and opinion). Taylor AE, Saint-Cyr JA. Winter 92–98
Dexamethasone suppression test and depressive symptoms in bereaved children: a preliminary report. Weller EB, Weller BA, Fristad BA, Bowes JM. Fall 418–421
The neuropsychology of depressions. Cassens G, Wolfe L, Zola M. Spring 202–213
**Dexamethasone**
Dexamethasone suppression test and depressive symptoms in bereaved children: a preliminary report. Weller EB, Weller RA, Fristad MA, Bowes JM. Fall 418–421
**Diagnostics**
Differential diagnosis and pathophysiology of Cushing's syndrome and primary affective disorder. Krystal A, Krishnan KRR, Raitiere M, Poland R, Ritchie JC, Dunnick NR, Hanada K, Nemeroff CB. Winter 34–43
Introduction to neuropsychiatric decision making: binary diagnostic tests. Somoza E, Mossman D. Summer 297–300
The process approach to neuropsychological assessment of psychiatric patients. Kaplan E. Winter 72–87
**Dopamine System**
Dopamine-responsive dysnomia? Lauterbach EC, Spears TE, Prewett MJ. Summer 353–354
Parkinson's disease, personality, and dopamine. Menza MA, Forman NE, Goldstein HS, Golbe LI. Summer 282–287
**Editorials**
Localization in neuropsychiatry. Fogel BS. Fall 361–362
Neuropsychiatry and gun safety. Bell CC. Spring 145–148
Neuropsychiatry and the homeless. Kass F, Silver JM. Winter 15–19
Neurosurgical and related interventions for the treatment of patients with psychiatric disorders. Yudofsky S, Ovsiew F. Summer 253–255
**Elderly**
Cortical function assessment in the elderly. Herst LD, Voss CB, Waldman J. Fall 385–390
**Electroencephalogram**
Anticonvulsant-responsive panic attacks with temporal lobe EEG abnormalities (clinical and research report). McNamara ME, Fogel BS. Spring 193–196
Brain-mapping abnormalities in a family with three obsessive compulsive children (clinical and research report). Silverman JS, Loychik SG. Summer 319–322
**Electrophysiology**
The application of electrophysiology to research in alcoholism. O'Connor S, Tasman A. Spring 149–158
**Emotion**
Emotional and cognitive correlates of multiple sclerosis. White RF. Fall 422–428
**Encephalopathy**
PET and neurobehavioral evidence of tetrabromoethane encephalopathy. Morrow LA, Callender T, Lottenberg S, Buchsbaum MS, Hodgson MJ, Robin N. Fall 431–435
**Epilepsy**
Epilepsy: a poem (letter). Simmons HE. Winter 116–117
Schizophrenia spectrum disorder and limbic epilepsy. Csernansky JG, Leiderman DB, Goldman J. Spring 236
What the reflex epilepsies reveal about the physiology of ideation (clinical and research report). Epstein AW. Winter 69–71
**Excitatory Amino Acids**
The role of excitatory amino acids in neuropsychiatric illness. Javitt DC, Zukin, SR. Winter 44–52

## INDEX

**Fluoxetine**
Adjunctive fluoxetine improves global function in chronic schizophrenia (case report). Goldman MB, Janecek HM. Fall 429–431
**Fourier Analysis**
Fine force instability: a quantitative measure of neuroleptic-induced dyskinesia in the hand. Caligiuri MP, Lohr JB. Fall 395–398
**Gun Safety**
Neuropsychiatry and gun safety (editorial). Bell CC. Spring 145–148
**Head Injury**
Neuropsychiatry and gun safety (editorial). Bell CC. Spring 145–148
**Homeless Persons**
Neuropsychiatry and the homeless (editorial). Kass F, Silver JM. Winter 15–19
**Human Immunodeficiency Virus**
Cognitive deficits associated with human immunodeficiency virus encephalopathy. Krikorian R, Wrobel AJ, Meinecke C, Liang WM, Kay J. Summer 256–260
Neuropsychological effects of early HIV-1 infection: assessment and methodology. Ingraham LJ, Bridge TP, Janssen R, Stover E, Mirsky AF. Spring 174–182
Psychoneuroimmunology and HIV infection. Gorman JM, Kertzner R. Summer 241–252
**Huntington's Disease**
$D_2$ receptors in Huntington's disease: positron emission tomography findings and clinical correlates. Brandt J, Folstein SE, Wong DF, Links J, Dannals RF, McDonnell-Sill A, Starkstein S, Anders P, Strauss ME, Tune LE, Wagner HN, Folstein MF. Winter 20–27
**Ideation**
What the reflex epilepsies reveal about the physiology of ideation (clinical and research report). Epstein AW. Winter 69–71
**Intermittent Explosive Disorder**
Comparative effectiveness of carbamazepine and propranolol for rage outbursts. Mattes JA. Spring 159–164
**Letters**
Abnormalties of the septum pellucidum in schizophrenia. Luauté JP, Sanabria E, Bauge JP, Rodde B. Fall 461
Association of high prolactin levels and neuroleptics immediately postpartum. LaFleur P, Van Norman J, Nader S, Shapiro L, Peabody CA. Winter 115
Case of craniopharyngioma in late life. Sweet RA. Fall 464–465
Cobalimin and organic mood syndrome. Lowinger P. Fall 467
Continuing education in neuropsychiatry. Thenor F. Winter 115
Dopamine-responsive dysnomia? Lauterbach EC, Spears TE, Prewett MJ. Summer 353–354
Elevated tricyclic antidepressant plasma concentrations associated with fluoxetine: two case reports. Michals M, Stanley DA, Crismon ML, Barrow NE. Fall 466–467
Epilepsy: a poem. Simmons HE. Winter 116–117
Fluoxetine in adults with residual attention deficit disorder and hypersomnolence. Sabalesky DA. Fall 463–464
Limbic lesions in a patient with recurrent mania. Berthier ML, Starkstein SE, Robinson RG, Leiguarda R. Spring 235–236
Neuropsychiatrist--who qualifies as one? Merikangas JR. Summer 354
On the involvement of the locus ceruleus in Parkinson's disease. Freed DM. Winter 114
Reply to Dr. Freed. Sudarsky L. Winter 114
Reply to Dr. Luauté. George MS, Kellner CH, Scott T, Malcolm R. Fall 461–462
Reply to Dr. Merikangas. Yudofsky S, Hales RE. Summer 354
Reply to Dr. Thenor. Yudofsky SC. Winter 116
Schizophrenia spectrum disorder and limbic epilepsy. Csernansky JG, Leiderman DB, Goldman J. Spring 236
Transient partial amnesia. Berthier ML, Starkstein SE. Fall 465–466
Treatment of a case of akinetic mutism with bromocriptine. Stewart JT, Leadon M. Fall 462–463
**Limbic System**
Limbic lesions in a patient with recurrent mania. Berthier ML, Starkstein SE, Robinson RG, Leiguarda R. Spring 235–236
Schizophrenia spectrum disorder and limbic epilepsy. Csernansky JG, Leiderman DB, Goldman J. Spring 236
**Lithium**
The tremomter: a convenient device to measure postural tremor from lithium and other causes. Forrest DV. Fall 391–394
**Localization**
Localization in neuropsychiatry (editorial). Fogel BS. Fall 361–362
**Magnetic Resonance Imaging**
Brain magnetic resonance imaging findings in ECT-induced delirium. Figiel GS, Coffey CE, Djang WT, Hoffman G, Doraiswamy PM. Winter 53–58
Quantitative shape analysis of the temporal and prefrontal lobes of schizophrenic patients: a magnetic resonance image study. Casanova MF, Goldberg TE, Suddath RL, Daniel DG, Rawlings R, Lloyd DG, Loats HL, Kleinman JE, Weinberger DR. Fall 363–372
**Mania**
Limbic lesions in a patient with recurrent mania. Berthier ML, Starkstein SE, Robinson RG, Leiguarda R. Spring 235–236
Secondary mania after ventral pontine infarction (clinical and research report). Drake ME, Pakalnis A, Phillips B. Summer 322–325
**Multiple Sclerosis**
Emotional and cognitive correlates of multiple sclerosis. White RF. Fall 422–428
**Neuroleptics**
Association of high prolactin levels and neuroleptics immediately postpartum (letter). LaFleur P, Van Norman J, Nader S, Shapiro L, Peabody CA. Winter 115
Fine force instability: a quantitative measure of neuroleptic-induced dyskinesia in the hand. Caligiuri MP, Lohr JB. Fall 395–398
**Neural Cell Adhesion Molecule (NCAM)**
Expression of a neural cell adhesion molecule serum fragment is depressed in autism. Plioplys AV, Hemmens SE, Regan CM. Fall 413–417
**Neuropsychiatric Practice and Opinion**
Depression in Parkinson's disease: a biochemical model. Sano M, Stern Y, Cote L, Williams JB, Mayeux R. Winter 88–92
Depression in Parkinson's disease; reconciling physiological and psychological perspectives. Taylor AE, Saint-Cyr JA. Winter 92–98
Neuropsychiatry and the modularity of mind. Ward CD. Fall 443–449
Psychosurgery revisited. Bridges P. Summer 326–331
Stereotactic radiofrequency thermal cingulotomy for obsessive compulsive disorder. Martuza RL, Chiocca EA, Jenike MA, Giriunas IE, Ballantine HT. Summer 331–336
Suspected dementia: psychiatric differential diagnosis. Ron MA. Spring 214–219
What difference does it make where the mind is? Some questions for the history of neuropsychiatry. Star SL. Fall 436–443
**Neuropsychiatry**
Localization in neuropsychiatry (editorial). Fogel BS. Fall 361–362
Neuropsychiatry and the homeless (editorial). Kass F, Silver JM. Winter 15–19
Neuropsychiatry and the modularity of mind. Ward CD. Fall 443–449
The role of excitatory amino acids in neuropsychiatric illness. Javitt DC, Zukin, SR. Winter 44–52
What difference does it make where the mind is? Some questions for the history of neuropsychiatry. Star SL. Fall 436–443
**Neuropsychology**
The process approach to neuropsychological assessment of psychiatric patients. Kaplan E. Winter 72–87
**Neurosurgery**
Neurosurgical and related interventions for the treatment of patients with psychiatric disorders (editorial). Yudofsky S, Ovsiew F. Summer 253–255
**Norepinephrine**
Autistic children and their first-degree relatives: relationships between serotonin and norepinephrine levels and intelligence. Cook EH, Leventhal BL, Heller W, Metz J, Wainwright M, Freedman DX. Summer 268–274
**Obsessive Compulsive Disorder**
Basal ganglia/limbic striatal and thalamocortical involvement in craving and loss of control in alcoholism. Modell JG, Mountz JM, Beresford TP. Spring 123–144
Brain-mapping abnormalities in a family with three obsessive compulsive children (clinical and research report). Silverman JS, Loychik SG. Summer 319–322
Stereotactic radiofrequency thermal cingulotomy for obsessive compulsive disorder (neuropsychiatric practice and opinion). Martuza RL, Chiocca EA, Jenike MA, Giriunas IE, Ballantine HT. Summer 331–336

**Organic Personality Disorder**
Organic personality disorder in dementia syndromes: an inventory approach. Cummings JL, Petry S, Dian L, Shapira J, Hill MA. Summer 261–267
**P300 Technique**
P300 response under active and passive attentional states and uni- and bimodality stimulus presentation conditions. Rappaport M, Clifford JO, Winterfield KM. Fall 399–407
**Panic Disorder**
Anticonvulsant-responsive panic attacks with temporal lobe EEG abnormalities (clinical and research report). McNamara ME, Fogel BS. Spring 193–196
**Parkinsonism**
Asymmetry in clinical features of drug-induced Parkinsonism (clinical and research report). Sethi KD, Zamrini EY. Winter 64–66
**Parkinson's Disease**
A brief scale for the dementia of Parkinson's disease. Huber SJ, Shuttleworth EC, Christy JA, Rice RR. Spring 183–188
Depression in Parkinson's disease: a biochemical model (neuropsychiatric practice and opinion). Sano M, Stern Y, Cote L, Williams JB, Mayeux R. Winter 88–92
Depression in Parkinson's disease; reconciling physiological and psychological perspectives (neuropsychiatric practice and opinion). Taylor AE, Saint-Cyr JA. Winter 92–98
On the involvement of the locus ceruleus in Parkinson's disease (letter). Freed DM. Winter 114
Parkinson's disease, personality, and dopamine. Menza MA, Forman NE, Goldstein HS, Golbe LI. Summer 282–287
Reply to Dr. Freed (letter). Sudarsky L. Winter 114–115
**Phenylethylamine**
Phenylethylamine metabolism in Tourette's syndrome. Bornstein RA, Baker GB, Carroll A, King G, Ashton S. Fall 408–412
**Positron Emission Tomography**
$D_2$ receptors in Huntington's disease: positron emission tomography findings and clinical correlates. Brandt J, Folstein SE, Wong DF, Links J, Dannals RF, McDonnell-Sill A, Starkstein S, Anders P, Strauss ME, Tune LE, Wagner HN, Folstein MF. Winter 20–27
PET and neurobehavioral evidence of tetrabromoethane encephalopathy. Morrow LA, Callender T, Lottenberg S, Buchsbaum MS, Hodgson MJ, Robin N. Fall 431–435
Subgroups in dementia of the Alzheimer type identified using positron emission tomography. Grady CL, Haxby JV, Schapiro MB, Gonzalez-Aviles A, Kumar A, Ball MJ, Heston L, Rapoport SI. Fall 373–384
**Prolactin**
Association of high prolactin levels and neuroleptics immediately postpartum (letter). LaFleur P, Van Norman J, Nader S, Shapiro L, Peabody CA. Winter 115
**Propranolol**
Comparative effectiveness of carbamazepine and propranolol for rage outbursts. Mattes JA. Spring 159–164
**Psychoneuroimmunology**
Psychoneuroimmunology and HIV infection. Gorman JM, Kertzner R. Summer 241–252
**Psychosurgery**
Psychosurgery revisited (neuropsychiatric practice and opinion). Bridges P. Summer 326–331
**Rage Outburst**
Comparative effectiveness of carbamazepine and propranolol for rage outbursts. Mattes JA. Spring 159–164
**Schizophrenia**
Adjunctive fluoxetine improves global function in chronic schizophrenia (case report). Goldman MB, Janecek HM. Fall 429–431
Assessment of procedural learning and problem solving in schizophrenic patients by Tower of Hanoi type tasks. Goldberg TE, Saint-Cyr JA, Weinberger DR. Spring 165–173
Neuropathological findings in a suspected case of childhood schizophrenia (clinical and research report). Casanova MF, Carosella N, Kleinman JE. Summer 313–319
The neuropsychology of schizophrenia: a neurodevelopmental and case study approach. Seidman LJ. Summer 301–312
Quantitative shape analysis of the temporal and prefrontal lobes of schizophrenic patients: a magnetic resonance image stydy. Casanova MF, Goldberg TE, Suddath RL, Daniel DG, Rawlings R, Lloyd DG, Loats HL, Kleinman JE, Weinberger DR. Fall 363–372
Schizophrenia spectrum disorder and limbic epilepsy. Csernansky JG, Leiderman DB, Goldman J. Spring 236
**Serotonergic System**
Autistic children and their first-degree relatives: relationships between serotonin and norepinephrine levels and intelligence. Cook EH, Leventhal BL, Heller W, Metz J, Wainwright M, Freedman DX. Summer 268–274
**Stroke**
Current research in affective disorders following stroke. Robinson RG, Starkstein SE. Winter 1–14
**Tardive Dyskinesia**
Fine force instability: a quantitative measure of neuroleptic-induced dyskinesia in the hand. Caligiuri MP, Lohr JB. Fall 395–398
**Temper Difficulties**
Comparative effectiveness of carbamazepine and propranolol for rage outbursts. Mattes JA. Spring 159–164
**Temporal Lobe**
Anticonvulsant-responsive panic attacks with temporal lobe EEG abnormalities (clinical and research report). McNamara ME, Fogel BS. Spring 193–196
**Tourette's Syndrome**
A survey of Tourette syndrome patients and their families: the 1987 Ohio Tourette survey. Bornstein RA, Stefl ME, Hammond L. Summer 275–281
Phenylethylamine metabolism in Tourette's syndrome. Bornstein RA, Baker GB, Carroll A, King G, Ashton S. Fall 408–412
Treatment of Tourette's syndrome with transdermal clonidine: a pilot study (clinical and research report). Gancher S, Conant-Norville D, Angell R. Winter 66–69
**Tower of Hanoi Task**
Assessment of procedural learning and problem solving in schizophrenic patients by Tower of Hanoi type tasks. Goldberg TE, Saint-Cyr JA, Weinberger DR. Spring 165–173
**Traumatic Brain Injury**
P300 response under active and passive attentional states and uni- and bimodality stimulus prosentation conditions. Rappaport M, Clifford JO, Winterfield KM. Fall 399–407
**Tremor**
The tremometer: a convenient device to measure postural tremor from lithium and other causes. Forrest DV. Fall 391–394
